

Pre-efficiency filter media

- Applied to many industry such as pollution controlin public construction,air-conditon ,electronic . pharmacy , food and so on

Specification

| model | C16-100 | C16-200 | PE-200 | C16-300 | C36-400 | GP-500 |
|------------------------------|----------------------|--------------|--------------|--------------|--------------|--------------|
| material | POLYESTER | | | | | |
| thickness | 5mm | 10mm | 15mm | 15mm | 20mm | 25mm |
| air velocity | 2.0m/S | 2.0m/S | 2.0m/S | 1.5m/S | 1 m/S | 1 m/S |
| initial efficiency | <20 | <20 | <20 | <20 | <20 | <20 |
| Initial resistance | 20Pa | 30 Pa | 35 Pa | 45Pa | 50Pa | 58Pa |
| Final resistance | 125Pa | 200Pa | 250Pa | 250Pa | 250Pa | 250Pa |
| Avg.arrestance(acc.EN779) | 68% | 85% | 85% | 88% | 91% | 91%-95% |
| Temp.resistance | 100°C | 100°C | 100°C | 100°C | 100°C | 100°C |
| Temp.short peaks | 120°C | 120°C | 120°C | 120°C | 120°C | 120°C |
| Dust holding at tested final | 380 g/m ² | 450 | 500 | 550 | 580 | 620 |
| Filtration class | G2 | G3 | G3 | G4 | G4 | G4/F5 |
| Normal size | 1*40 2*40 | 1*20 2*20 | 1*20 2*20 | 1*20 2*20 | 1*20 2*20 | 1*20 2*20 |

Specility:

- Pre-filtration for the heavy polluted general draft apparatus and the air control system.

- Anti-fractured PET organic synthetic fibre
- Large dust holding capacity , small resistance , long service life and economical

- Not contain silicon , chemical resisting and anti-acidic
- Conform to European and American classifications for nonflammability(e.g DIN53438-F1 , UL900-class 2 with flameout)
- Applied to pank filter and foldaway filter
- Available in paper frame ,galvanize frame , aluminium frame and so on

Remark:

Variety of sizes and thickness ,according the customer's requirement.
